

## Admissibility of the application for the ACTION specialized master's degree.

Applicant's surname:

First name:

Civil status:

Date of birth:

Place of birth:

E-mail address:

Phone number:

Please tick the box for the highest level of training corresponding to your background, which will enable you to apply for a specialized master's degree in October of the year of registration. You will need to attach proof of this choice to your application. For students in their third year of engineering school, an attestation of successful completion of their second year corresponds to an attestation of validation of an equivalent M1 level.

- Engineering degree conferring the grade of Master (courses evaluated by the Commission des titres d'ingénieur, list published in the Journal Officiel);
- Diploma from a management school, private or consular, conferring the grade of Master (courses evaluated by the CEFDG, list published in the official bulletin of the MESR);
- University-accredited post-graduate diploma (Diplôme national de Master, DEA, DESS, etc.) or professional diploma (BAC +5);
- Diploma or attestation of validation of an equivalent M1 level for candidates with at least three years' professional experience related to the course in question. A certificate of equivalence may be required by the school to guarantee validation of the M1 level and/or acquisition of the corresponding 240 ECTS;
- Title registered in the Répertoire National des Certifications Professionnelles (RNCP) at level 7 (former level I nomenclature);

Par dérogation pour 30 % maximum du nombre d'apprenants suivant la formation Mastère Spécialisé® concernée, sont recevables les candidatures de titulaires d'un des diplômes suivants :

- Diploma or validation certificate of equivalent M1 level, with no professional experience, or with less than three years' professional experience relevant to the course. A certificate of equivalence may be required by the school to guarantee validation of the M1 level and/or acquisition of the corresponding 240 ECTS credits;
- Bachelor's degree (L3) or diploma registered with the RNCP level 6 (former level II nomenclature), with proof of at least 3 years' professional experience related to the course in question. A certificate of equivalence may be required by the school to guarantee validation of the L3 level and/or acquisition of the corresponding 180 ECTS credits.
