

BELGIAN PROTEOMICS ASSOCIATION · CONFERENCE

BePac 2026

CONFERENCE PROGRAMME AT A GLANCE

■ Day 1 · Tue 13 Oct 2026

■ Day 2 · Wed 14 Oct 2026

📍 Liège, Belgium

Day 1 · 13 October

A Less is more

The latest advances in low-input, single-cell and spatial proteomics, and their applications to complex biological systems.

1 keynote

4 talks

4 rapid talks

B Zooming out

How proteomics contributes to understanding biological processes, disease mechanisms and translational research.

1 keynote

4 talks

4 rapid talks

Day 2 · 14 October

C Going big

Innovative LC-MS workflows enabling large-scale, high-throughput and deep proteome analyses.

1 keynote

4 talks

4 rapid talks

D Processing & interpreting proteomic data

Modern computational approaches for proteomic data analysis, interpretation and AI-driven discoveries.

1 keynote

4 talks

4 rapid talks

🗨️ Dedicated time for discussion with speakers & poster presenters

CONFERENCE DINNER

Join us on **Tuesday 13 October** in the heart of the Ardent City.

CALL FOR ABSTRACTS **NOW OPEN**

Share your research with the Belgian proteomics community — submit for oral and/or poster presentation.

🕒 **Deadline 11 Sep 2026**

belgianproteomics.be/events/bepac26

RAPID TALKS

Dedicated **10-minute rapid talks** give young scientists the opportunity to showcase their research and connect with experts in the field.
